

## About This Web Site

This web site was developed by myself (Bud) and my son Erik for the Wave Blasters of Florida, RC model boat club in Fort Pierce, FL. I am a semi-retired marketing manager who loves computers, the internet, AND RC model boating. I am an active member of the Wave Blasters of Florida and enjoy the scale and sail model building and boating. My son Erik graduated from the University of Central Florida and is even more into computers than I ever dreamed of. (I never even knew about designing web sites at his age. Then again, there were no such things as web sites. Sigh!) His major is Digital Media so this is right down his alley. He has set up his own web design service under the name of "01 Designs". Fortunately for us, his services have been donated to the club. (Thanks Erik - Big Time!)

This has really been a Father and Son effort (or should I say Son and Father effort). Erik set up the design and shell of the site then Dad gets to put in all the information, photos, links, etc. It has been a lot of work but very enjoyable. Erik and I both hope that everybody who visits the site gets something of value from the visit. AND - If anybody has any suggestions, please let us know.

Bud Johansen - Web Master
